

ARGENTINEAN FIRE PIT

This unit is a custom built sunken fire pit with overhead rotisserie designed to be a spectacular feature in any display kitchen or theatre restaurant.

Features Include:

- Fire pit can be gas fired (with lava rocks) or charcoal/wood fired
- Standard circular pit is 1000mm in diameter (custom sizes available on request) with rotisserie above.
- Unit includes 250mm tray race, giving a final diameter of 1500mm.
- Fire pit will have a lined and finished steel frame with the option for finishing in black powder coating.
- Rotisserie can be manual or electric powered with a removable spit skewer capable of carrying a 10kg roast.
