

# BEECH OVENS

WORLD LEADER IN SPECTACULAR COOKING EQUIPMENT

**B**eech offer a variety of removable rotisserie units inside our stone hearth ovens. The rotisserie can be large enough to cook whole lambs, pigs or other large pieces of meat, or smaller for poultry. The intense heat inside the oven results in meat that cooks evenly and is tender and tasty.

By locating the rotisserie inside the oven, moisture is retained and there is no drying out as the meat bastes in its own juices. If a wood fire is used, a subtle flavour is also imparted to the meat, adding to the appeal. An 18kg lamb is easily cooked in less than 4 hours, and the result is mouth-wateringly succulent! This oven will have customers returning to your restaurant!

The rotisserie is motorised and robust enough to prevent any imbalance to the rotation. When not in use the small rotisserie can be removed from the oven and other dishes such as pizza can be cooked here. The unique frame and drip trays mean that removing fat from the oven is safe and easy, and the oven itself remains clean.

A small rotisserie can be easily added to a standard multi-door rectangular oven, or for larger rotisseries, ovens are custom built to suit with an option for a separate fire box with glass window. All rotisserie ovens include classic glass doors and rear display flame allowing the oven to take centre stage in any display kitchen while retaining high cooking performance.

The rotisserie oven is available in a minimum standard size or can be custom built to your requirements. Additional features such as built in spot lights and windows allow this oven to take centre stage in your restaurant.

#### High Profile Installations:

- Park Hyatt, Dubai
- Galaxy Casino, Macau
- Cafe Piccolo Shore Park, London.

Rotisserie Oven	Internal Width	Internal Depth	External Width	External Depth
Large (minimum dimensions)	1250mm	1450mm	1600mm	2060mm
